

Insurance Management

## Press Release

### Global Success Leads to Name Change for Lumley Auto

Lumley Auto Limited has changed its name to Global Insurance Management Limited.

Lumley Auto has been supplying insurance products to the automotive sector for over thirty years and was subject to a change of management just over five years ago when John Gilbert purchased the business from Peter Lumley in 2004. During that time the annual GWP turnover has grown dramatically from £3 million to a figure close to £20 million.

Lumley's relationship with underwriting partner AXA Insurance plc has helped it build operations throughout Europe and the Middle East. It has also seen that close relationship take Lumley into other sectors, including manufacturing, insurance, banking and finance markets.

Current manufacturer clients include Harley-Davidson, Buell, Jaguar, Land Rover, JCB and Suzuki and insurance intermediaries such as Towergate, The Policy Shop, Quoteline Direct and WestInsure with International insurance companies AIM Általános Biztosító Zrt and UNION Biztosító Vienna Insurance Group.

In the banking and finance sector Lumley Auto collaborates with companies including Barclays and JCB Finance and continue to provide products and services to a number of the Top 100 Motor Dealers including Sytner, Lookers, Eastern / Western Motor Group, Agnew Cars and HR Owen.

John Gilbert (Managing Director) will continue to be fully supported by his Senior Management Team; Peter Robinson, Mike Miller, Barry Rowlands, Graham Hodgkinson & Allan Steele.

Global Insurance Management has launched a new fully functional website [www.globalim.co.uk](http://www.globalim.co.uk) - complete with policy registration, regular industry news and a new quarterly FSA newsletter highlighting key notes within the industry.

#### Ends
